- Gujarati

PROFILE

I am a MERN Stack Developer with knowledge of MongoDB, Express.js, React.js, and Node.js. I have built blog projects to learn full-stack web development. I enjoy coding, solving problems, and creating websites that work well. I am always eager to learn more, and I work well in a team. I am looking to grow as a developer in a real-world job environment.

EXPERIENCE & TRAINING

- **Payment Posting in Medical Billing (Trainee)** APR 2024 - AUG 2024
  iFedora Services Pvt Ltd

PROJECT

BLOG (Feature of Full Project) - **Available offline**

FRONTEND
- Developed a modern, responsive, and user-friendly UI using React.js and Bootstrap frameworks.
- Implemented component-based architecture to improve reusability and maintainability.
- Used React Hooks (useState, useEffect, etc.)
- Utilized Axios/Fetch API for asynchronous communication with the backend.

BACKEND
- Built RESTful APIs using Express.js to support full CRUD functionality.
- Designed modular and scalable routing and middleware architecture.
- Implemented JWT-based authentication and bcrypt.
- Integrated with MongoDB using Mongoose for database interaction
